

Precision in every breath

Pulmonary diagnostics, critical care and operating theatre systems for hospitals across South India.
Every supply includes on site installation, clinical application training and 24 months warranty.

01

Spirometers

Pocket, clinical, PC based, mobile and full laboratory systems

MIR

Spirobank Smart

App based pocket spirometer

- Bluetooth BLE, iOS and Android
- PEF, FVC, FEV1, FEV25-75
- Oxi version adds SpO2 and pulse

MIR

Smart One

Personal PEF and FEV1 monitor

- One second test
- Reusable turbine, no calibration
- Oxi version adds SpO2 and BPM

MIR

MiniSpir

Handheld PC based spirometer

- FVC, VC, IVC, MVV
- Pre and post bronchodilator
- USB powered, no maintenance

MIR

Spirolab

Desktop and PC spirometer

- 7 inch touch display
- Embedded printer
- Optional oximetry

VITALOGRAPH

copd-6

COPD screening device

- FEV1, FEV6, ratio, % predicted
- Obstructive index, COPD stage
- Detachable flowhead, lung age

VITALOGRAPH

Pneumotrac

PC based precision spirometry

- No moving parts
- Autoclavable at 137 C
- Spirotrac V software, USB

SPIROSONIC

SpiroSonic FLO

Ultrasonic PC spirometer

- Multi path ultrasonic sensing
- Suits children and frail patients
- Pairs with SpiroReporter

GERATHERM

Spirostik Blue

Mobile Bluetooth spirometer

- Sensor changed in seconds
- Blue Cherry SQL software
- GDT and HL7 interfaces

SAFEY

Connected Pocket Spirometer

FDA cleared pocket spirometer

- FDA 510(k) K201002
- Bluetooth LE to Android and iOS
- 58 x 95 x 8.2 mm, 258 g

SAFEY

Clinic Spirometer Lite

Portable clinic spirometer

- 32 spirometry parameters
- FVC and full loop tests
- Android, iOS and web

SAFEY

Clinic Spirometer USB

Desktop USB spirometer

- 53 spirometry parameters
- FVC, full loop, MVV and SVC
- EHR and EMR integration

SPIROSONIC

SpiroReporter

Spirometry reporting software

- Trend and quality control
- HL7, GDT and XML export
- Works with fingertip oximeters

11 Product categories

11+ Global brands

24 Month warranty

7 Day delivery

EVERY SUPPLY INCLUDES

Installation
commissioned on site

Training
for your clinical team

Warranty
24 months, extendable

Service
AMC and CAMC with spares

Advanced Pulmonary Function Diffusion capacity, body plethysmography and cardiopulmonary exercise testing

GERATHERM

DLCO

Diffustik

CO diffusion testing system

- Rapid infrared gas analysis
- Standing or seated measurement
- Networkable over GDT or HL7

GERATHERM

Plethysmography

Bodystik

Whole body plethysmograph

- Easy cabin entry
- Lung volumes and resistance
- ATS and ERS quality checks

GERATHERM

CPET

Ergostik

Cardiopulmonary exercise test

- Light weight flow sensor
- Automatic threshold detection
- Optional training and REE

Oscillometry and Airway Inflammation Tidal breathing mechanics and exhaled nitric oxide

THORASYS

Oscillometry

tremoflo C-100

Airwave oscillometry system

- No forced expiration needed
- Test in a few minutes, 700 g
- Adult and paediatric normals

NIOX

FeNO

NIOX VERO

FeNO measurement device

- Oral and nasal applications
- On device result library
- Over 18 million tests to date

SUNVOU

FeNO

Nano Coulomb Breath Analyser

Exhaled NO, CO and H₂S

- Online, offline and tidal modes
- Large, small and upper airway
- Self calibration and gas check

Operating Theatre and Vascular Access Vein viewers, operating tables and surgical lighting

ACCUVEIN

Vein viewer

AccuVein AV400

Handheld vein illuminator

- Maps veins onto the skin
- Shows valves and bifurcations
- Handheld or hands free

ACCUVEIN

Vein viewer

AccuVein AV500

Vein illuminator on a stand

- Improves first attempt success
- Reduces repeat sticks
- Paediatric and geriatric use

HAMMERTON

OT table

HT 777

Electric operating table

- Zero position on one button
- SS 304 base and cylinder covers
- Stores user positions

HAMMERTON

OT table

HT 555

Electric table, manual override

- Six section stainless steel top
- Battery backup, crank override
- 180 kg load capacity

HAMMERTON

OT table

HT 1000

Radio translucent OT table

- Radio translucent top
- Trendelenburg and lateral tilt
- Cabled hand held remote

HAMMERTON

OT light

OT Light 500 and 700

LED surgical lights

- Shadow free field
- Adjustable intensity
- Low heat at the field

ACELITE

OT light

Acelite 160

LED theatre lighting

- Shadowless illumination
- Colour range options
- Ceiling, wall or mobile mount

ALLIED

Meditec Vista

Intensive care ventilator

- Intuitive user interface
- Precision ventilation
- Wide display and control unit

ALLIED

Meditec 1100

Portable emergency ventilator

- Versatile modes
- Ambulance and military use
- Simple emergency workflow

ALLIED

Meditec 1200

Portable emergency ventilator

- 4.4 kg
- NIV mask and hose set included
- Optional wall mount

ALLIED

Meditec 1700

ICU and transport ventilator

- ICU and intra hospital transport
- In built air supply
- Air and ground transport

MEDITEC

Neptune Prime

Anaesthesia workstation

- 15.6 inch touch screen
- V-CMV, P-CMV, SIMV, PSV
- Tidal volume 5 to 1500 ml

ALLIED

Jupiter

Anaesthesia workstation

- Cascade flowmeter
- 1465 x 720 x 660 mm
- 110 W power draw

ALLIED

Jupiter Plus

Anaesthesia workstation

- 10.1 inch high resolution display
- 72 hour graphical trends
- VTi and VTe measurement

ALLIED

M700 Series

Multi parameter patient monitor

- Modular parameter set
- Central station ready
- Adult, paediatric and neonatal

METSL

Vital Track

15 inch bedside monitor

- 96 hours of trend storage
- Up to 7 waveforms
- Wired or wireless to CMS

METSL

VPM 50

12.1 inch patient monitor

- 96 hours of trend storage
- 3 or 5 lead ECG, SpO2, NIBP
- 1.5 kg, ambulance suitable

METSL

Vital Track 12

Monitor with Masimo SET

- 200 hours data storage
- Optional EtCO2, IBP, 12 lead E...
- Ethernet or wireless to CMS

METSL

Vital Track mini

Compact portable monitor

- 8 inch colour display
- SpO2, NIBP, ECG, temp, resp
- Adult, paediatric and neonate

BRANDS WE REPRESENT

Authorised distributor for leading global medical technology manufacturers

• MIR

• Vitalograph

• Geratherm Respiratory

• SpiroSonic

• Safey

• Thorasys

• NIOX

• Sunvou

• AccuVein

• Hammerton Surgical

• Acelite

• Allied Medical

• Meditec

• METSL

• Maestros

• Contec

• Masimo

TERRITORY

Chennai · Bangalore · Hyderabad · Coimbatore · Salem · Madurai · Kanchipuram

METSL

MR 900

12 channel ECG machine

- 7 inch colour touch LCD
- A4 size 12 channel printing
- Over 50 ECGs per charge

CONTEC

CMS 5300

Compact vital signs monitor

- NIBP, SpO2 and pulse rate
- Body temperature
- Large numeric display

METSL

CTG 150

Fetal monitor with twin FHR

- 10.1 inch colour touch display
- Inbuilt 6 inch thermal printer
- 24 hours of patient data

METSL

Vital Wave

Portable biphasic defibrillator

- Up to 270 joules
- Full charge in under 10 seconds
- Over 50 shocks per charge

METSL

Vital Wave Pro

Biphasic defibrillator, self test

- 2 to 200 joules
- Manual, cardioversion, AED
- Upgrade to SpO2, NIBP, EtCO2

MAESTROS

SD 60

Syringe infusion pump

- Front loading
- Body weight and volume modes
- Fits all major syringe brands

**CARNA MEDICARE**

Let us help you specify the right system.

Share your clinical requirement and our team will recommend a configuration, arrange a demonstration at your facility and prepare a detailed quotation. Full manufacturer brochures and the complete reference catalogue are available on request.
